

The Sanford Underground Research Facility

Mike Headley
SDSTA Executive Director
SURF Laboratory Director

Jaret Heise
SDSTA Science Director

September 28, 2021

Underground Research Facility

South Dakota Science and Technology Authority

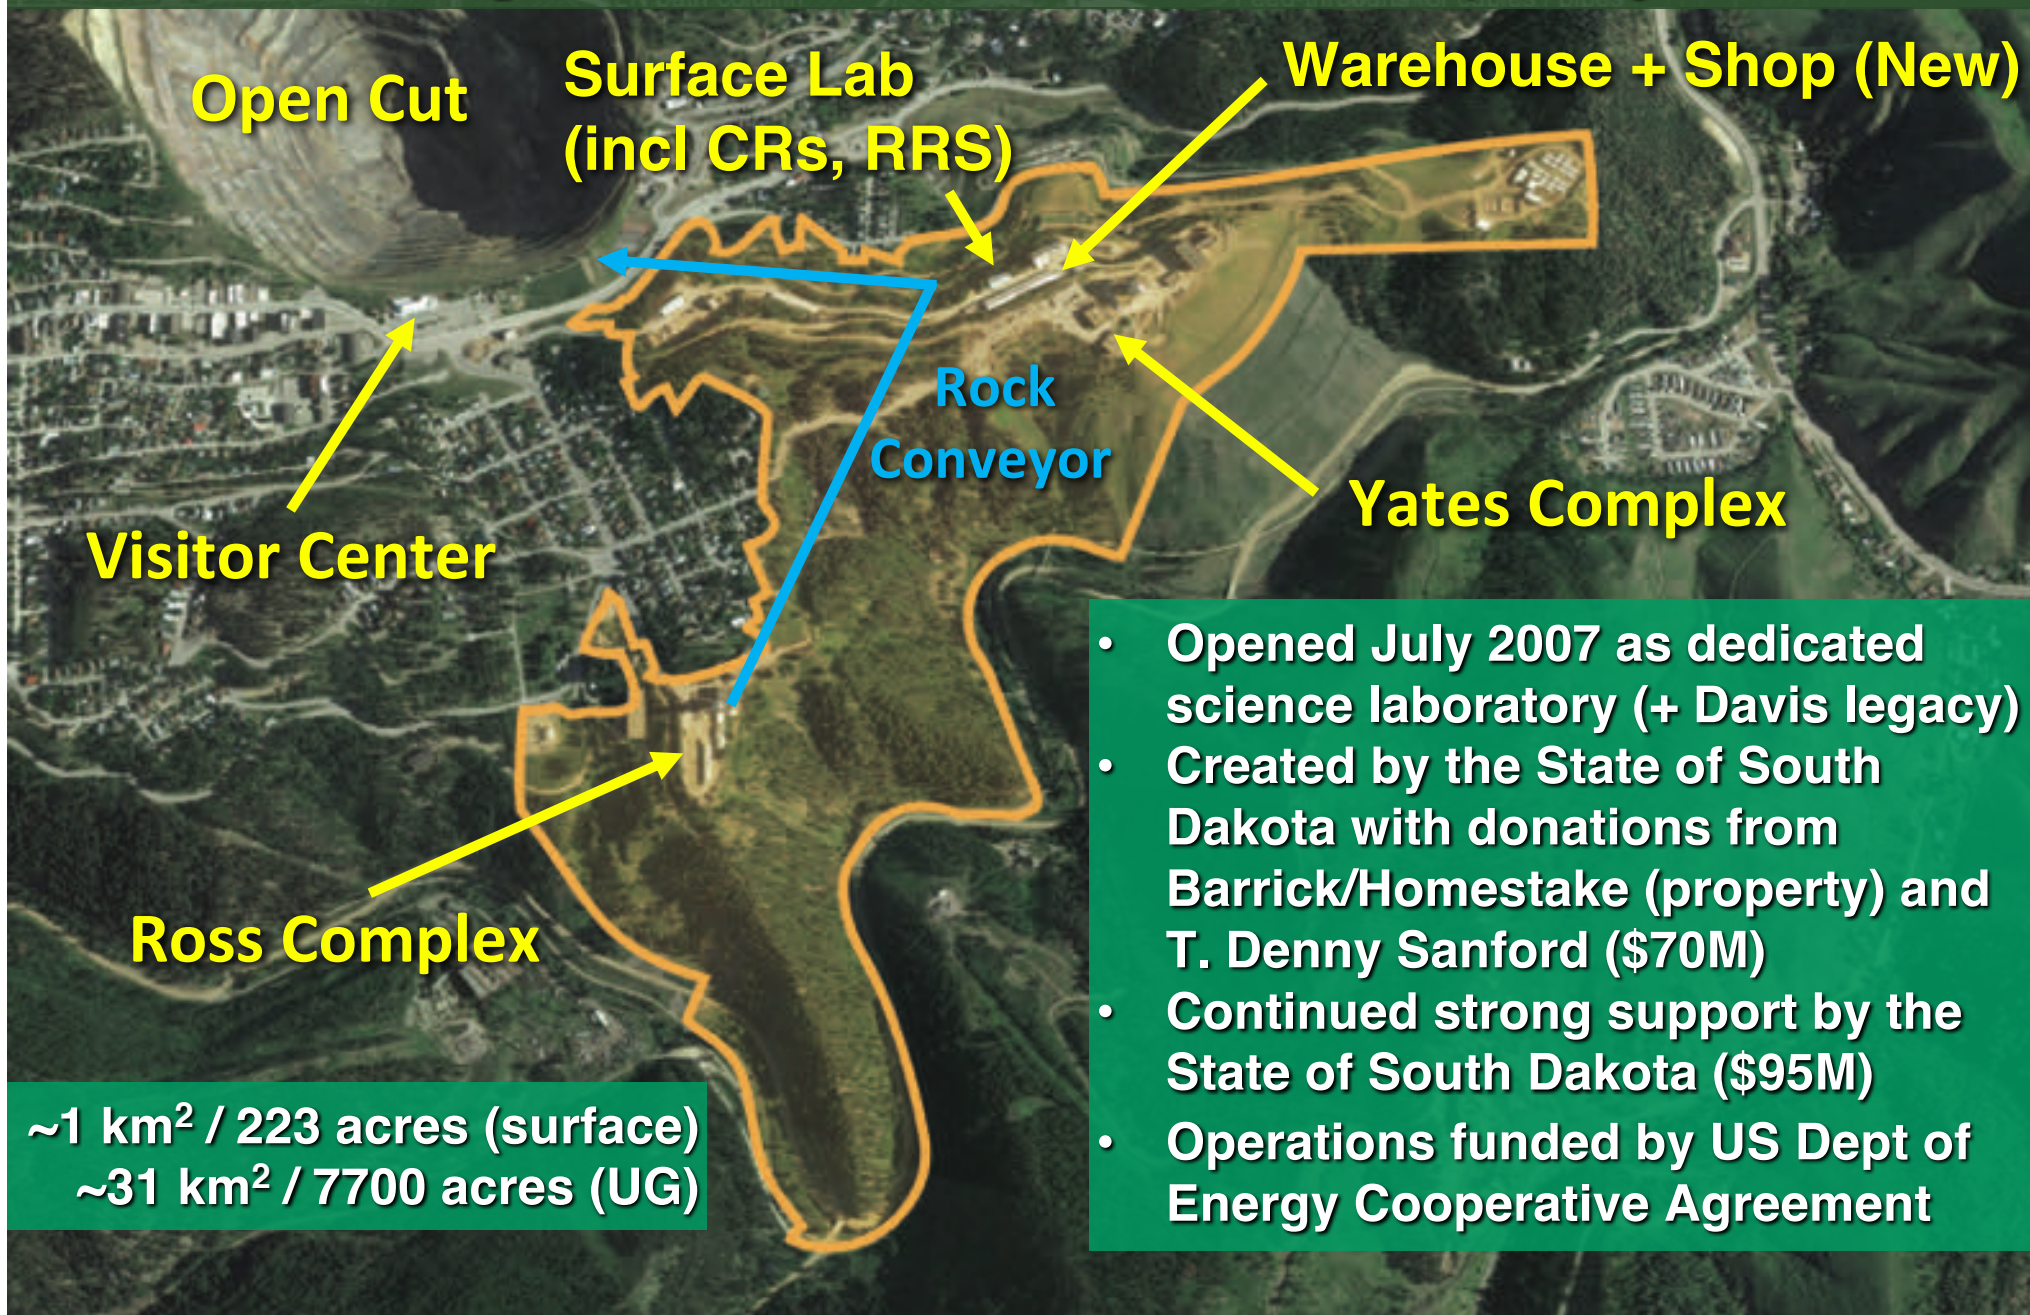

SDSTA Mission and Vision

Mission: *We advance world class science and inspire learning across generations.*

Vision: *The world's preferred location for underground science and education.*

Sanford Underground Research Facility

Nation's underground lab to advance multi-disciplinary research

New Rounds Operations Center Completed

\$6.5M South Dakota commitment - 26,000 sq. ft. total

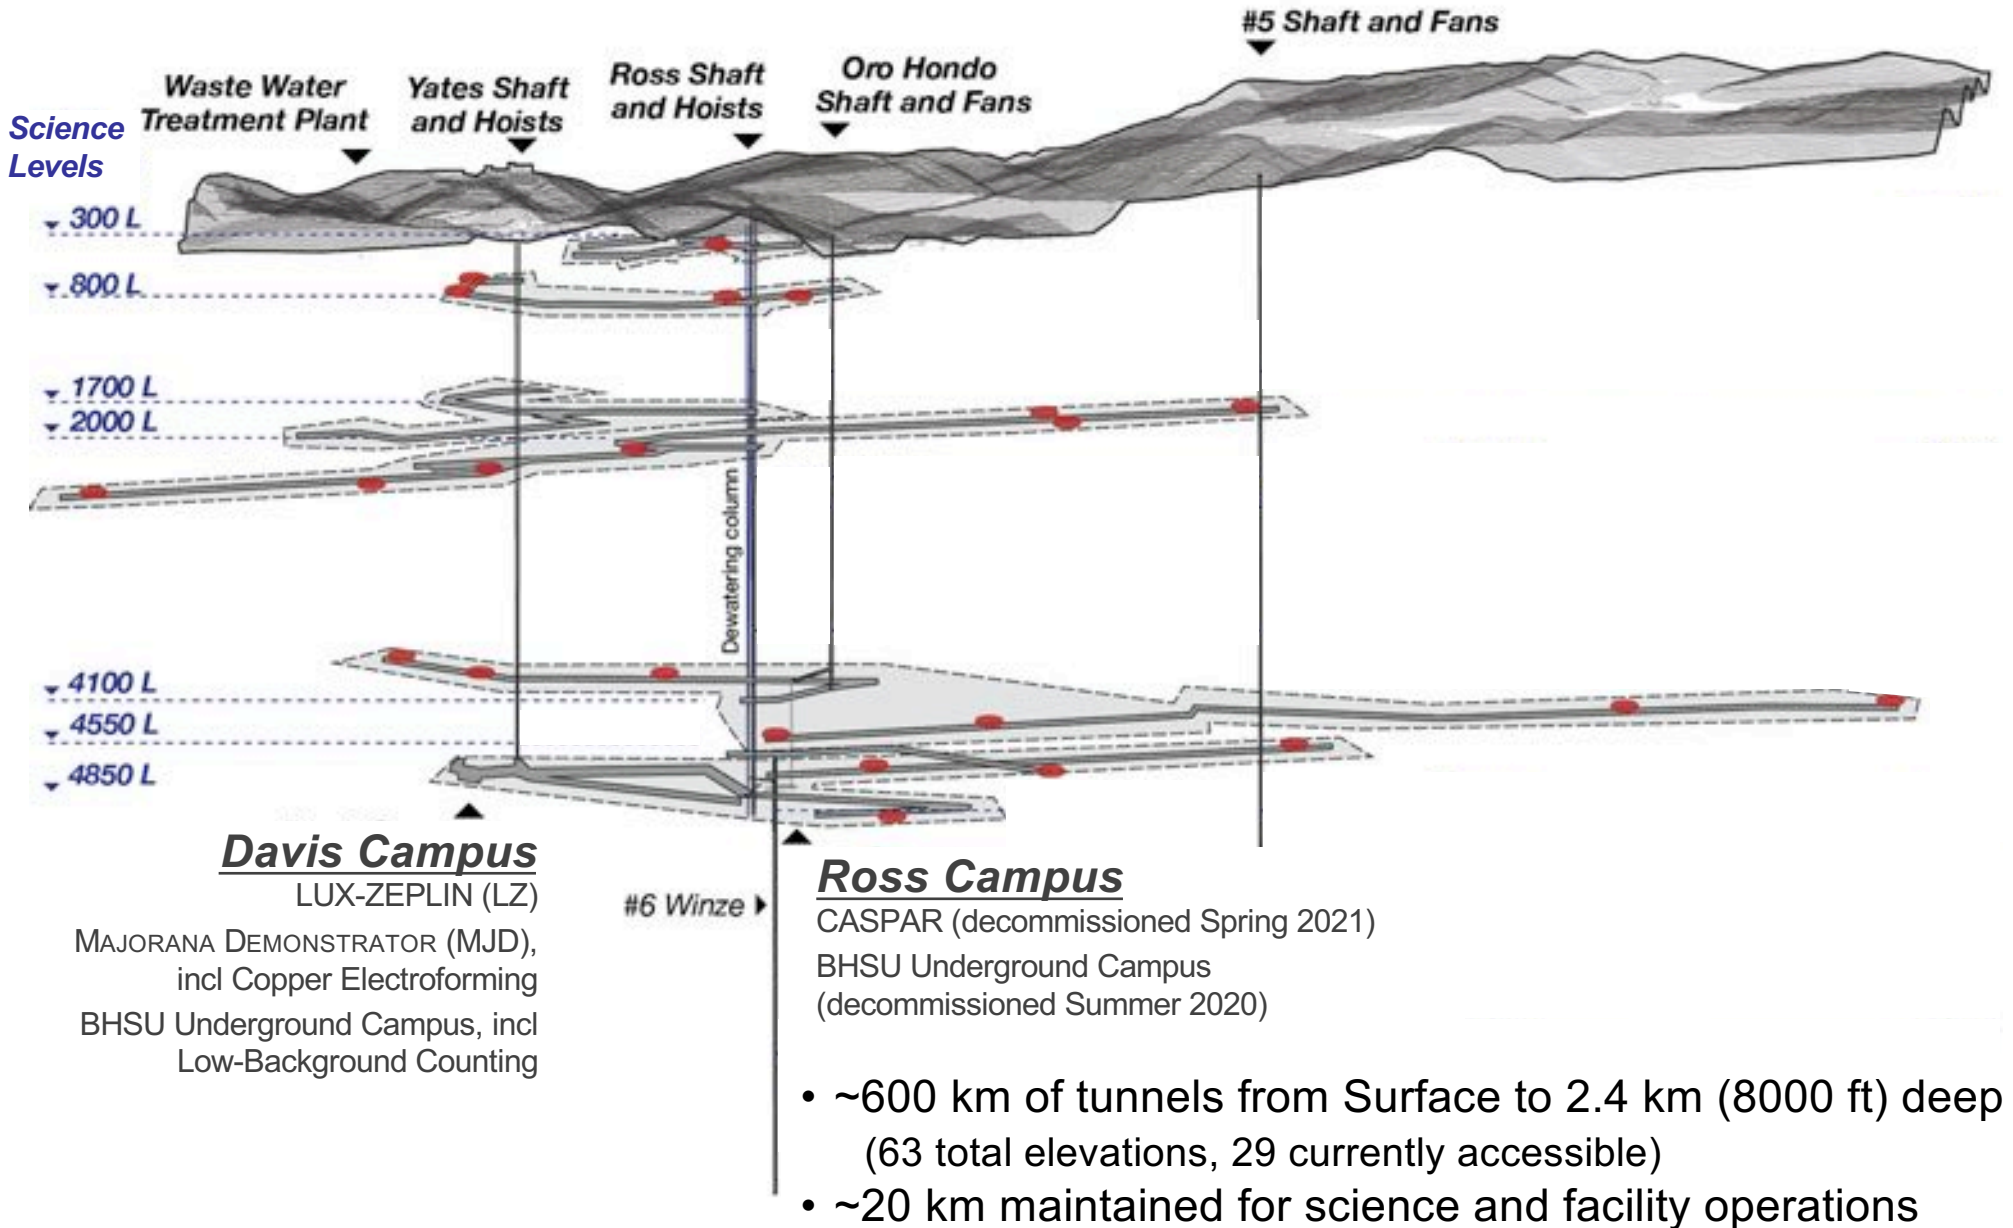

ROC Ribbon Cutting – Aug 20

SURF Underground Lab Geography

Yates & Ross + ventilation shafts, multiple levels for science

Current & Future Underground Facilities

SURF research through 2050 and beyond

Existing Facilities

Future Facilities

Mothballed during
LBNF construction

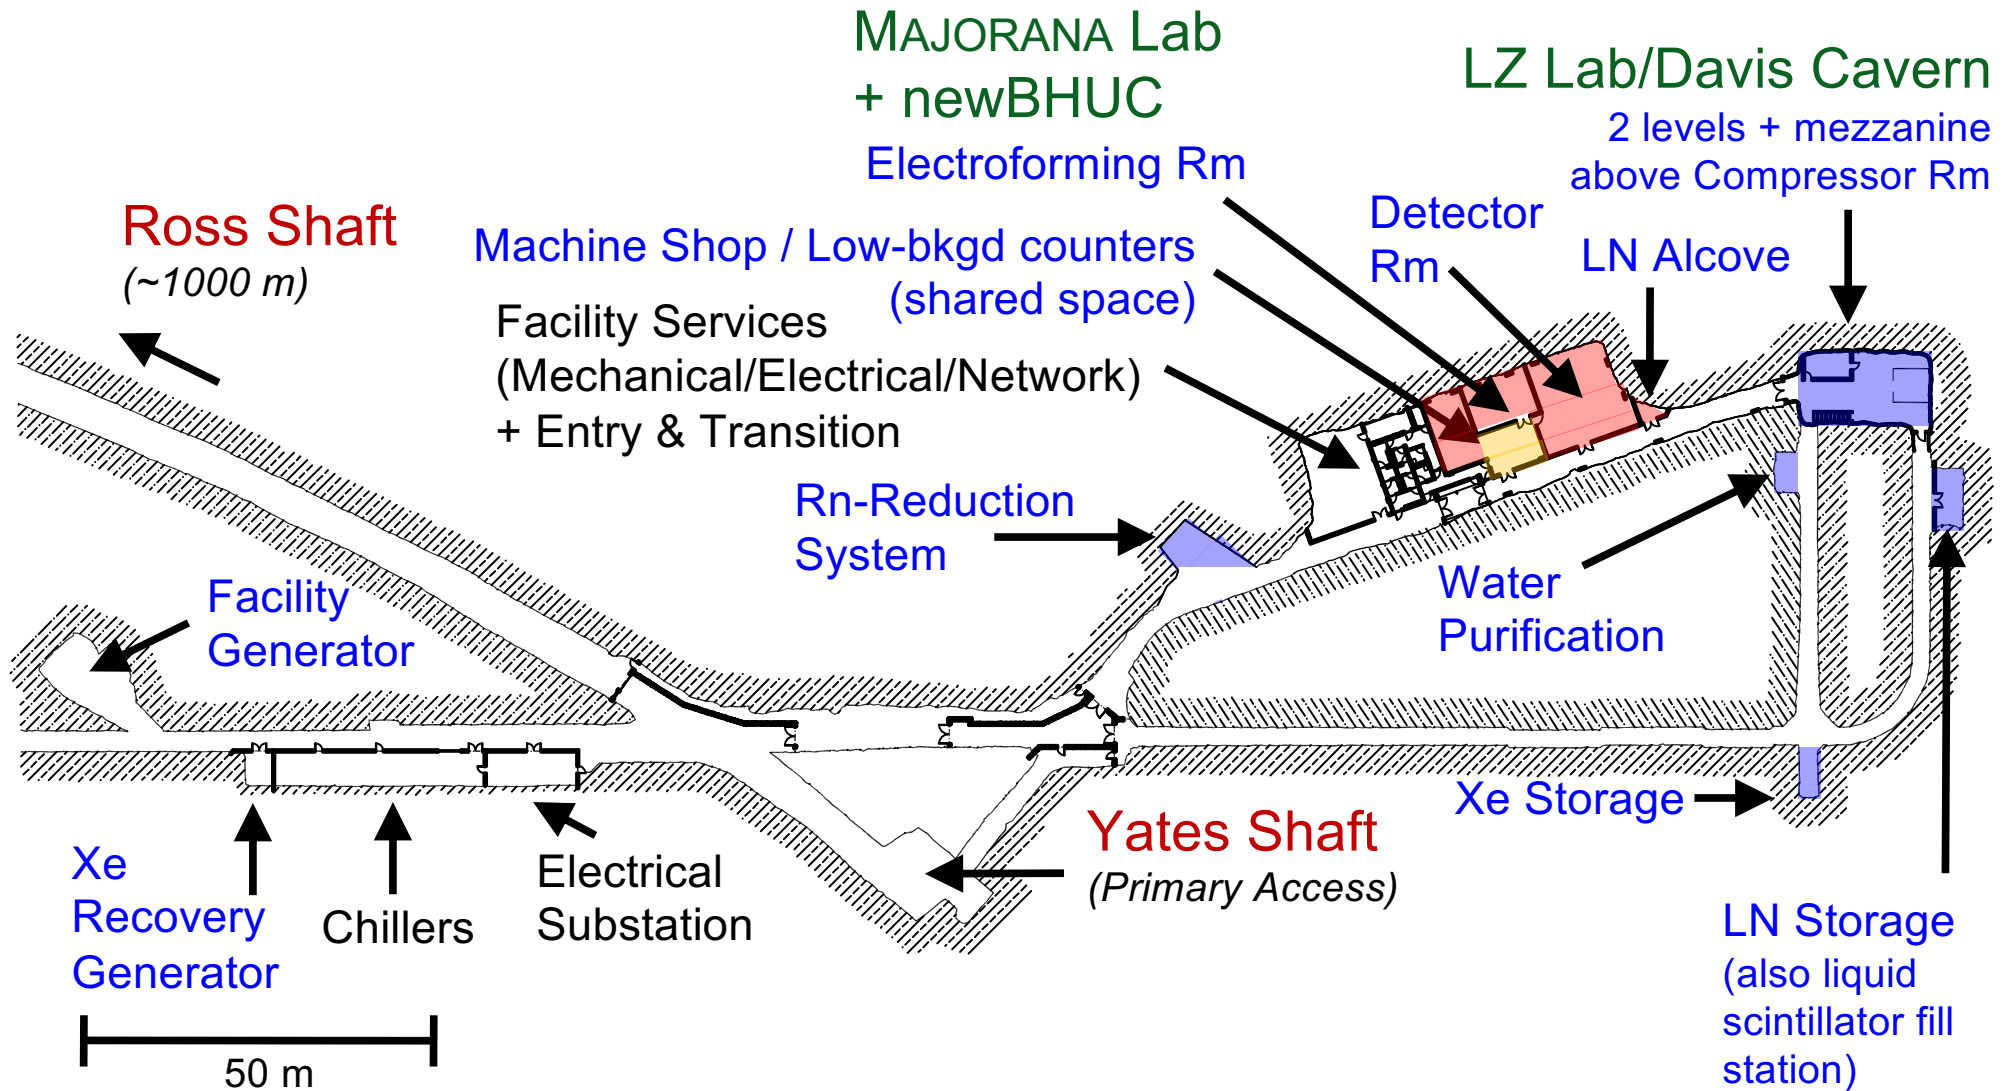

4850L Ross Campus

2,645 m² (Total) / 1,150 m² (Science), Improve Existing Excavations

4850L Davis Campus

3,015 m² (Total) / 1,015 m² (Science), New Excavation+Davis Cavern

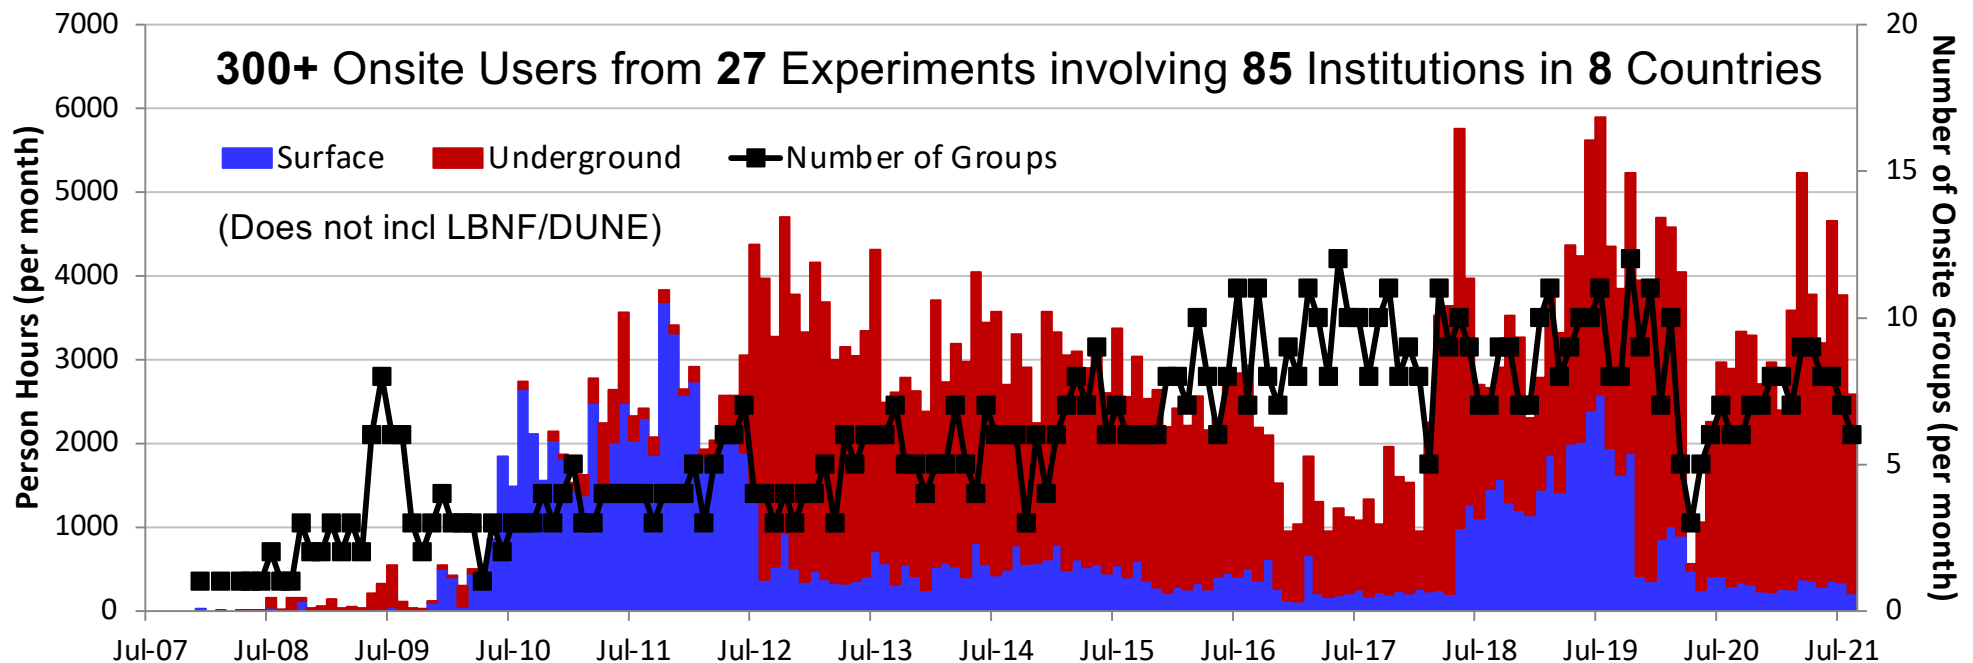

SURF Overview

Serving a diverse community of researchers

- Facility Highlights

- **World-class services** and **unique attributes** attractive to physics, biology, geology and engineering
- **Deep** (1500 m, 4300 mwe) underground facility **dedicated** for science, with **capacity & expansion** possibilities (SURF strategic plan incl additional laboratories and deeper access to 2300 m, 6500 mwe)
- **Redundant** safe access with 2 principal shafts (incl redundant **power** and **network** utilities)
- **Robust Organization:** Resources to ensure safe and successful science: 187 full/part-time staff, 11 departments, ESH (incl nurse, 24-hr emergency response), Engineering, Operations, Science + others
- **Mature Programs:** Experiment implementation & safety; also monitoring (see backup)
- **Community:** SURF **User Association** launched in 2020, SURF **Science Program Advisory Cmttee** established in 2021. Both groups support application to become DOE Office of Science **User Facility**

SURF Science Support

Resources for Safe and Efficient Implementation of Experiments

Markus Horn (PhD)
Research Scientist
- Surface + UG Campuses

Charles Maupin (BSME, PE)
Expt Review Engineer
- Reviews, cryogen safety

Jaret Heise (PhD) – Director
- Manage dept and experiment implementation program

Mark Hanhardt (MS)
Expt Support Scientist
- Surface + UG Campuses

David Rynders (CHP, CSP)
Expt Health & Safety
- Health physics, radiation

T. Regan, G. Vandine
Safety, UG Coordination
- Bio/geology (no pic)

J. Connot, Others
UG Operations Eng, UG Maintenance Crew
- Ventilation, prep (no pic)

Robyn Varland - Lab Custodians (Surface + UG) - Melissa Johnston

Doug Tiedt (PhD)
Research Scientist
- Surface + UG Campuses

Sarah Wortman (+ Service Contracts)
Facilities Technician
- Surface + UG lab system maintenance

SURF Current Science Program

Research activities ranging from surface to 1500+ m underground

Physics LZ – Dark matter, 2-phase Xe TPC
MAJORANA DEMONSTRATOR / LEGEND –
Neutrinoless double-beta decay Ge-76,
also Cu e-forming, planning Ta-180m
CASPAR – Nuclear astrophysics with
1 MV accelerator
LBNF/DUNE – Neutrino properties, etc
BHUC – BHSU Underground Campus,
mainly material screening
Berkeley LBF – Low-bkgd counter (x3);
also CUBED – Low-bkgd counter (x1)
nEXO – Low-bkgd counter (x1)
LLNL – Low-bkgd counter (x1)
SDSMT Bkgds – Neutron bkgds

Biology Astrobiology/DeMMO – *In-situ*
cultivation, DNA isolation
2D-Best – Biofilms (SDSMT, USD, SDSU)
Biodiversity – Microbial communities
Biofuels – Extremophile bioprospecting
BuG ReMeDEE – Methane oxidation
Carbon Sequestration – Biology in core
Chemistry – Env characterization
Liberty BioSecurity* – Extremophiles

Geology SIGMA-V – Geothermal
Core Archive* – Mainly gold deposits
Hydro Gravity – Local gravity for
water tables, densities
Transparent Earth – Seismic arrays

Engineering Xilinx, Inc* – Chip error testing
Thermal Breakout – *In situ* stress
Shotcrete – Mining safety
GEOX™ – Env monitoring
Caterpillar* – Mining processes
Blast Monitoring – LBNF-related

* Denotes proprietary group

Total = 27 Groups
20 Active Projects
(57 Total Groups Since 2007)

Significant interest from others
(16 groups in 2020)

Experiment Implementation Program

Identify Interfaces and Hazards within Approval Framework

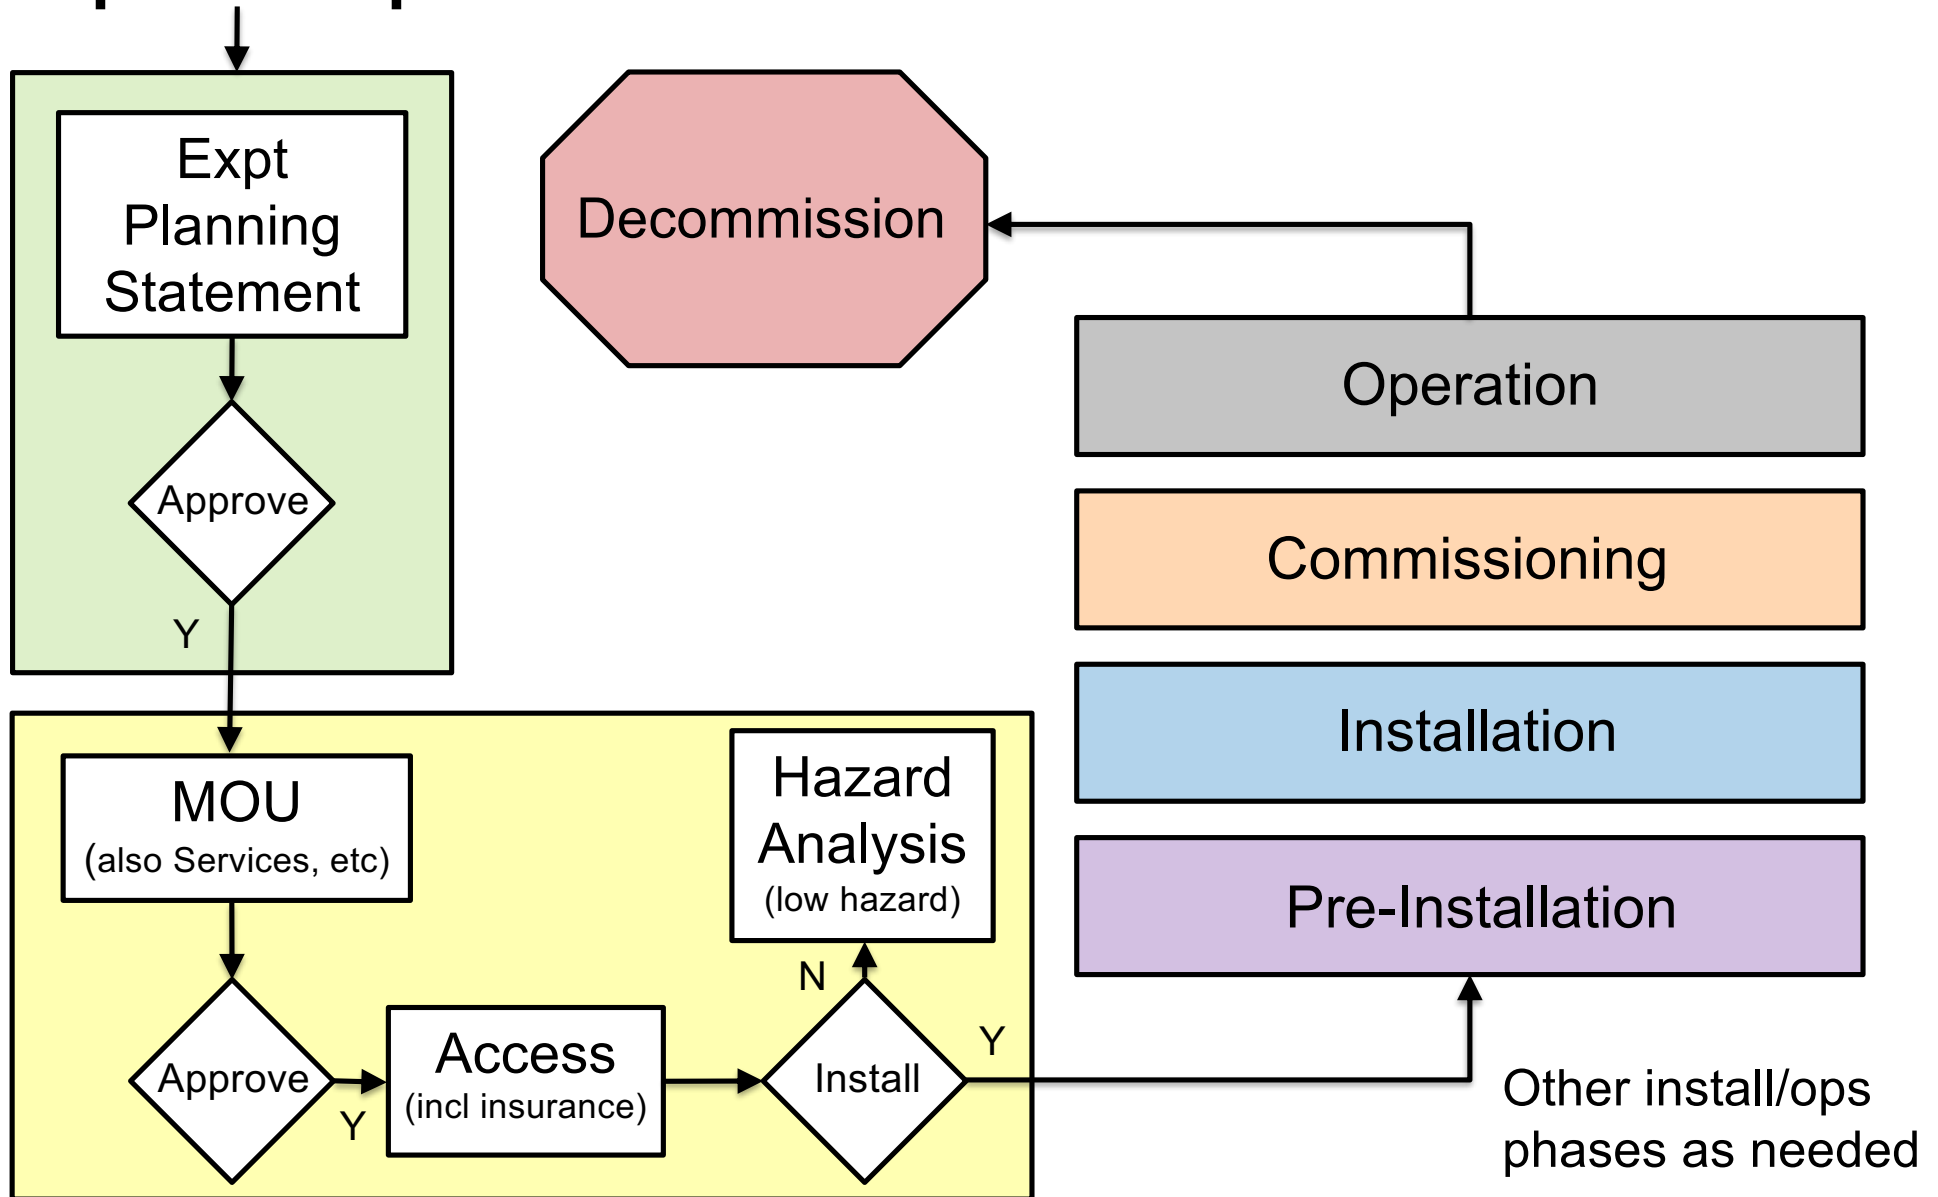

- <https://www.sanfordlab.org/researchers/proposal-guidelines>
- **Project Documentation**
 - Expression of Interest, incl support letters
 - Experiment Planning Statement
 - Memorandum of Understanding (space commitment)
 - Access: Request form, waiver, insurance
 - Services Agreement(s), if applicable
 - General Services Agreement: Who provides what and who pays
 - Contract(s): Specific expenses, direct use of SURF staff
 - Experiment Decommissioning Statement
- **Environment, Safety & Health**
 - Hazard Analysis: Assessments/analyses (e.g., ODH), procedures, testing/certifications
 - Inventories: Chemical, electrical, hoisting & rigging, pressure vessel, radioactive materials
 - Training: Sanford Lab modules, Expt training plan (incl equivalences), recordkeeping
- **Reviews**
 - Facility, walk-through inspections, monitoring, readiness reviews (safety, operation)
 - Commensurate with hazards
- **Authorization**
 - Work planning & controls (procedure reviews/approvals, release), Science/ESH + SMEs
 - Authorization To Proceed for significant installation and associated significant hazards

Experiment Implementation Program

Process Flow Chart

Expt Concept

SURF COVID-19 Response

Effective measures limiting COVID spread at SURF

Initial:

- Brief period of minimal essential operations:
 - Mar 25 – May 6, 2021: Access limited, critical monitoring/maintenance, consumable supplies (e.g., LN) still supported; some surface activities resumed in April
- Monitored data in 100-mile region, scrutiny on travel
- Controls developed based on CDC, OSHA:
 - Masks required in buildings/labs, respirators required on conveyances
 - Reduced #s on conveyances & meeting rooms, telework encouraged
 - Wellness checks at site entrances
- Significant collaboration institutional travel restrictions
- Large in-person events canceled or virtualized (e.g., Neutrino Day 2020 & 2021)

Current:

- Masks required for personnel in buildings/labs and conveyances per CDC based on elevated county virus transmission metrics (cases, positivity)
- Restricted occupancy in some areas, limited in-person events

SURF User Association

Purpose

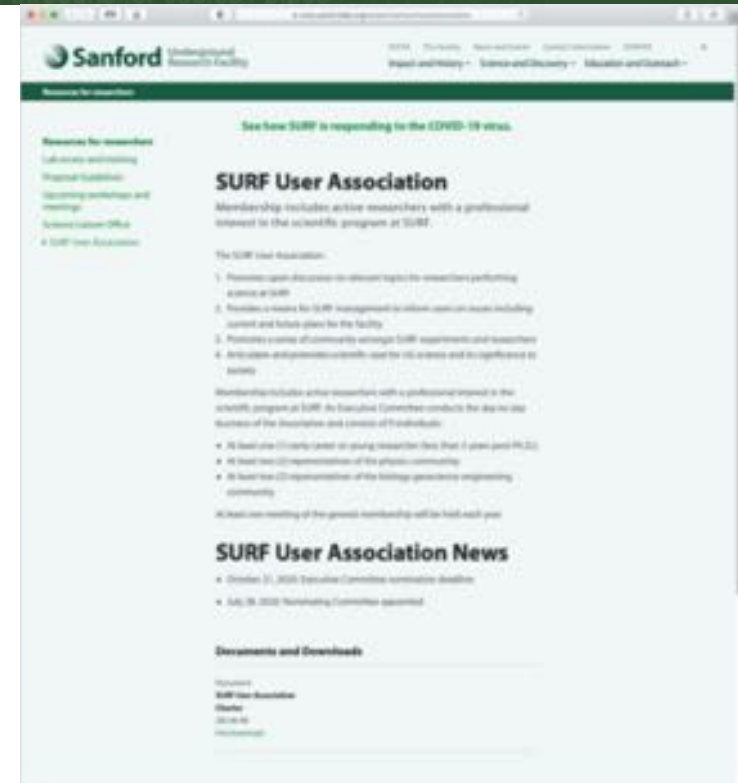

- Promotes **open discussion on relevant topics for researchers** performing science at SURF
- Provides a means for **SURF management to inform users** on issues including current and future plans for the facility
- Promotes a **sense of community** amongst SURF experiments and researchers
- Articulates and promotes **scientific case for UG science** and significance to society, provides channel for **advocacy**

Organization

- **Membership** open to Underground Science Community (initially was active SURF researchers). Annual meeting
- **Executive Committee** consists of 9 individuals across scientific disciplines, incl early career. Two-year terms (except first year in order to provide overlap), limits per experiment and institution. Quarterly meetings

Status

- **Charter** initially approved in Feb 2020, updated in Aug 2021 to broaden membership (need to formalize registration process)
- **Executive Committee** elections conducted in Oct 2020, members announced Dec 2020, officers selected Jan 2021 (chair and secretary). Next election soon!
- Association organized **SURF Vision Workshop** Sep 14-15; also **General Meeting** Sep 28-29 (now!)

Recent (and Current) Events

The screenshot shows the Indico event page for the "SURF Long-Term Vision Workshop". The event is scheduled for 14-15 September 2021 via Zoom. The main text describes a round table discussion on current and future underground research programs, organized by the SURF User Association. A sidebar on the left contains navigation links for Overview, Timetable, Contribution List, and Speaker List. A "Zoom" section provides the start and end times (14 Sep 2021, 09:00 to 15 Sep 2021, 14:05) and lists recorded sessions and materials.

SURF Long-Term Vision Workshop

14-15 September 2021
Zoom

Overview
Timetable
Contribution List
Speaker List

The SURF User Association Executive Committee has convened a Round Table discussion on current and future underground research programs. This group will help the facility management understand the possible uses and interest in underground facilities and identify possible synergistic research opportunities. The discussion will span physics, geology, biology, engineering as well as additional possible uses for underground space. In turn this discussion will assist the facility management to plan space and resources over the next several decades. The event is open to all users and researchers. Please register for the Zoom webinar and join us Sep 14-15: https://us06web.zoom.us/webinar/register/WN_K45re6Q-TXeT8xgR22EVWx.

Organized by the SURF User Association
(<https://www.sanfordlab.org/researchers/surfuserassociation/>).

Starts 14 Sep 2021, 09:00
Ends 15 Sep 2021, 14:05
100 Mountains

SURF Vision Workshop (Sep 14-15):
<https://indico.sanfordlab.org/event/26/>

The screenshot shows the Indico event page for the "SURF Annual User Association General Meeting". The event is scheduled for 28-29 September 2021 via Zoom. The main text invites users to the 1st Annual SURF User Association General Meeting, which will be an open meeting for all users at SURF. The meeting is part of the SURF User Association's annual goals to share exciting work and discuss the future. Registration is required for the Zoom webinar. A sidebar on the left contains navigation links for Overview, Timetable, Contribution List, Speaker List, My Conference, and My Contributions.

SURF Annual User Association General Meeting

28-29 September 2021
Zoom

Overview
Timetable
Contribution List
Speaker List
My Conference
My Contributions

Join us for the 1st Annual SURF User Association General Meeting. It will be an open meeting for all users at SURF during which short presentations will be given by researchers and teams working at SURF as well as presentations by SURF staff about ongoing and future efforts to maintain and improve the facilities. The General Meeting is part of the SURF User Association (<https://www.sanfordlab.org/researchers/surfuserassociation/>) annual goals to share with all SURF users the exciting work going on in the lab spaces around you and discuss what the future holds for all of us.

Please register for the Zoom webinar at the following link and join us for a chance to hear about the exciting things happening at SURF and to ask questions of SURF staff and fellow researchers. https://us06web.zoom.us/webinar/register/WN_VCARhgDZT8ySvUPRz584Q

Starts 28 Sep 2021, 09:00
Ends 29 Sep 2021, 14:00
100 Mountains

SURF Conferences

Upcoming Events

SD MINES
South Dakota School of Mines & Technology

ACADEMIC DEPARTMENTS

**CONFERENCE ON SCIENCE
AT THE
SANFORD UNDERGROUND
RESEARCH FACILITY**

SD Mines campus, May 11-13, 2022

**4th CONFERENCE ON SCIENCE
AT THE
SANFORD UNDERGROUND
RESEARCH FACILITY**

May 11-13, 2022:
Conference on Science at SURF (SD Mines)

**Stay Tuned for
More Details!**

Low Radioactivity Techniques

Low Radioactivity Techniques Portal

Find information on past and future LRT workshops here, as well as links to relevant resources.

The Low Radioactivity Techniques (LRT) workshop series examines topics in low radioactivity materials and techniques, a fundamental aspect of rare event searches.

Topics include global radioactivity measurement and screening facilities, low background counting techniques, purification and contamination control, Rn control, cosmogenic activation of materials, and backgrounds and simulations for rare event experiments related to dark matter, solar neutrinos, double-beta decay and long half-life phenomena. This conference's wide scope includes all aspects of the development of low background detectors and techniques.

Upcoming LRT Workshop:

**SD Mines campus + SURF
June 13-17, 2022**

Past LRT Workshops:

- **LRT2007** at Ewha Womans University hosted by the Institute for Basic Science, Seoul, South Korea
- **LRT2005** hosted jointly by PNNL and the University of Washington in Seattle, USA

Jun 13-17, 2022:
Low Radioactivity Techniques (SD Mines + SURF)

SURF Science Program Advisory Committee

Purpose

- **Science Program:** Provide guidance on overall SURF scientific program (incl current, planned/proposed experiments), as well as direction and breadth of program
- **Science Support:** Advise on SURF experiment implementation program and organizational capacity to support experiments
- **Science Facilities:** Advise on capability and capacity of the SURF facility necessary to support the SURF scientific program

Committee Membership

- SPAC consists of up to **14 members**, representing breadth of SURF research disciplines with strategic and synergistic influences (SDSTA Laboratory and Science Directors *ex-officio*)
- Members: Two-year terms (extendable). Chair: One-year term (extendable)
- Selection of new members made by SDSTA Laboratory + Science Directors in consultation with SDSTA IDEA Office

1. David MacFarlane (SLAC/Chair)
2. Kate Scholberg (Duke)
3. Ed Blucher (Chicago)
4. Hamish Robertson (Washington)
5. Federica Petricca (Max Planck)
6. Barbara Szczerbinska (TAMU-CC)
7. Joseph Formaggio (MIT)
8. Magdalena Osburn (Northwestern)
9. Mary Voytek (NASA)
10. Derek Elsworth (Penn State)
11. Hunter Knox (PNNL)
12. William Roggenthen (SDSMT)
13. Lance Roberts (SDSMT)
14. Kathryn Johnson (RCC/former SD BoR)

Status

- SPAC charter formalized in May 2021, committee members finalized in Sep 2021
- Planning first meeting in 2021, incl engage on SURF strategic items such as additional UG lab space, Snowmass, etc

SURF 15-Year Horizon Goals

- LBNF and DUNE have been constructed and are fully operational.
- Two additional large lab modules on the 4850L have been constructed and are operational.
- Construction is underway on two 7400L lab modules including the required underground access infrastructure for experiments with increased shielding requirements.
- Provide broader underground access to a range of science disciplines including below the 5000L.
- SURF Institute has been constructed and is fully operational with compelling, vibrant science and education programs.
- Foster commercial partnerships to advance technology development in the region, increase facility ops efficiency and safety, and expand workforce development opportunities.

SURF Underground Facility Expansion

Current facilities and future possibilities

- **LBNF construction at SURF started Jan 2019**; excavation and concrete underway, complete by **Nov 2023**; outfitting complete **Jul 2025**, cryostat #1 complete **Apr 2026**
- **Expansion possibilities:** 4850L (as indicated), possible 7400L (2300 m, 6500 mwe)
 - Engaging design firm to conduct 4850L feasibility study in 2021
- Future space development must be responsive to **community's needs**:
 - SURF participating in Snowmass, SURF LOI submitted for Underground Facilities Frontier: <https://www.snowmass21.org/docs/files/?dir=summaries/UF/>
 - Planning Snowmass whitepaper to document SURF capabilities and future plans

Education and Outreach “Why”

Every student deserves:

- High Quality
- Engaging
- Relevant
- Equitable
- Rigorous

science learning opportunities.

Defining the E&O “How”

Create experiences, resources and supports that move classroom experiences from “**Learning About**” to “**Figuring Out**” – and leverage the engineering and unsettled science of Sanford Lab.

Describing the E&O “What”

1. Field Trips
2. School Presentations
3. Curriculum Units
4. Teacher Professional Development & Support

E&O – Next Steps

Building Relationships

- Expanding the number of schools and students impacted annually
- Increasing the percentage of rural and tribal partner districts

Bridging to Post-Secondary and Career

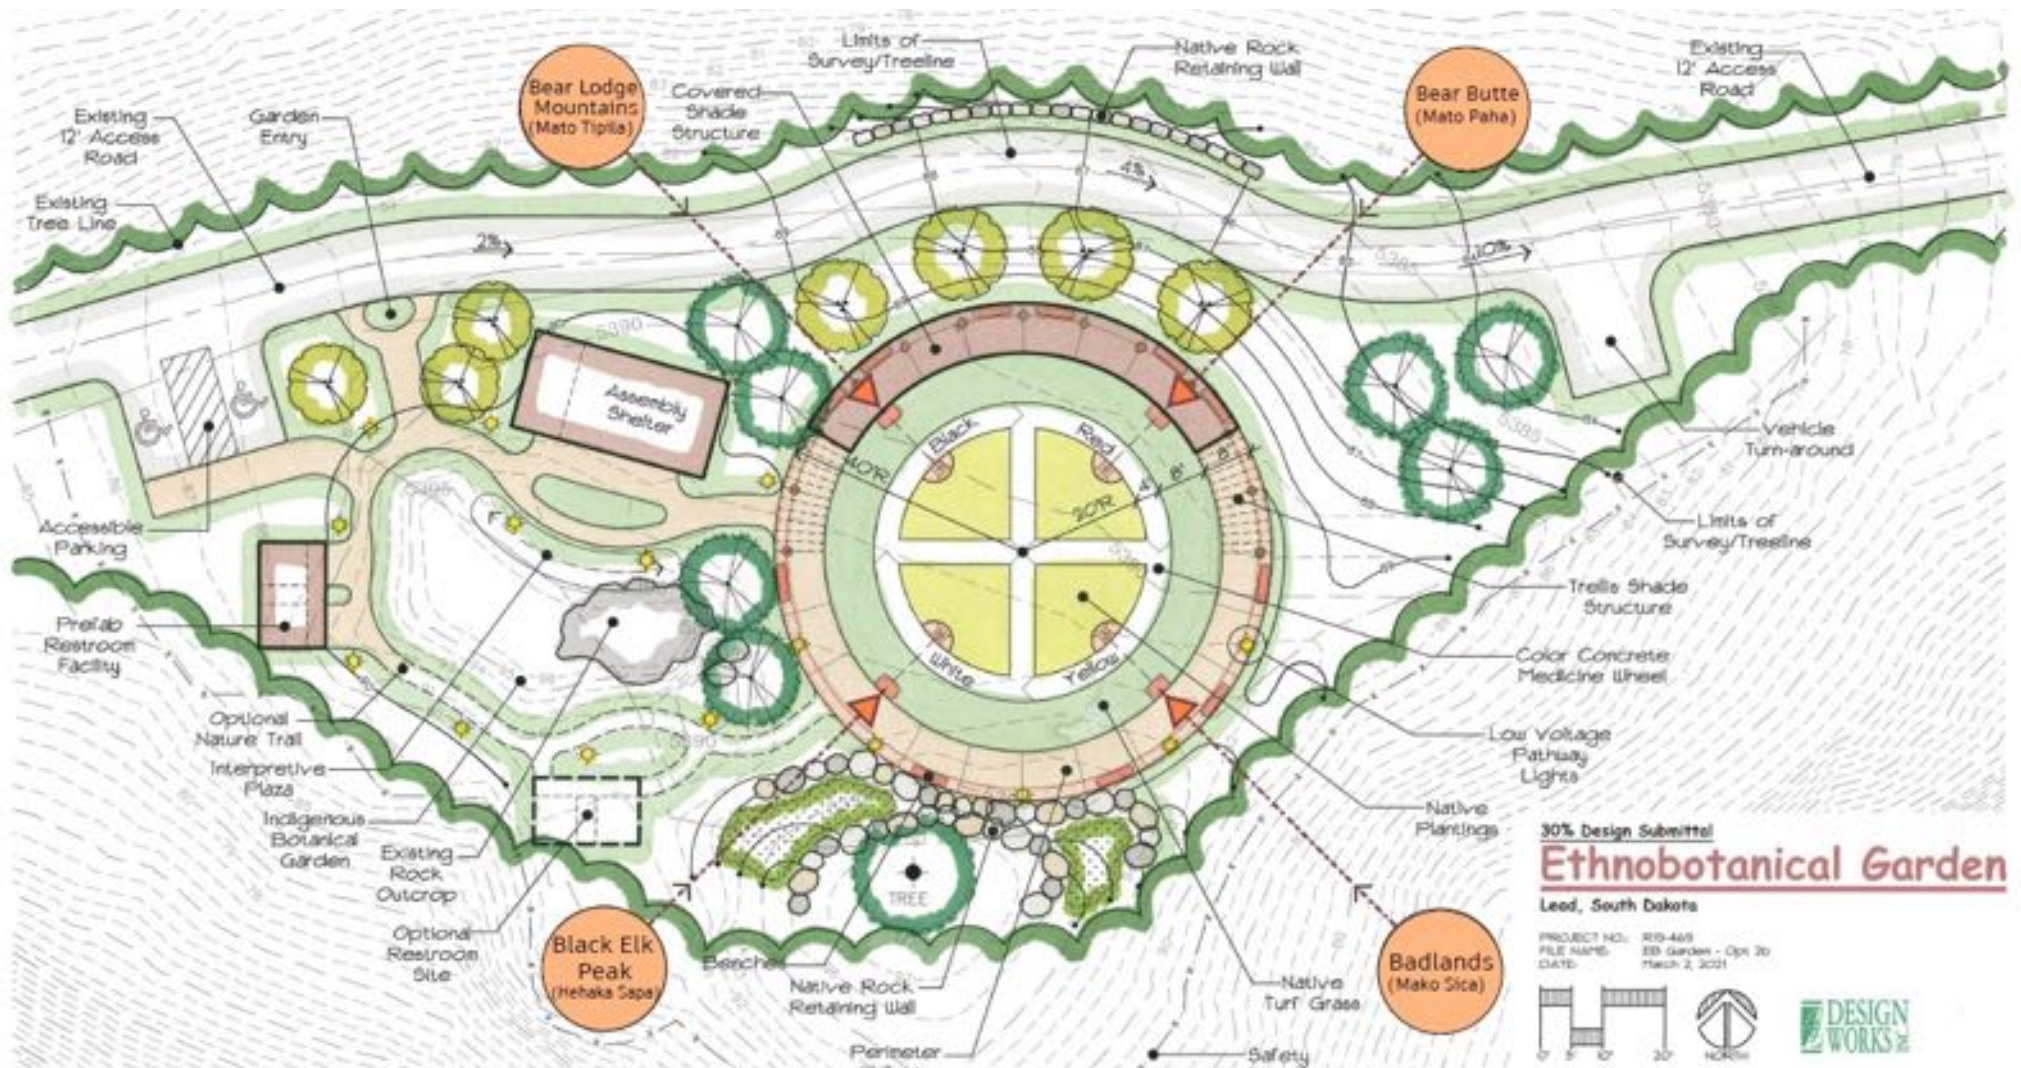

- Expanding partnerships with post-secondary institutions
- Offering unique supports & resources to K-12 pre-service teachers in science
- Increasing outreach to a diverse audience for internships and the Davis-Bahcall Scholars Program

Working toward a Global Reach

- Building on lessons learned during the pandemic to offer engaging virtual options anywhere.

SCOPING DOCUMENT

July 30, 2021

SCOPING DOCUMENT PREPARED FOR:

SOUTH DAKOTA SCIENCE AND TECHNOLOGY AUTHORITY
BOARD OF DIRECTORS

dialogue

creative consulting
& project management

Institute scoping document released on July 30. Many thanks to our working group for their contributions!

We've since held a building visioning workshop with Arup on Aug 27. Discussed functional requirements, sizing, pros/cons of potential locations on-site and in Lead overall.

Arup developing report to capture items from above and initial costing for main structure and guest house.

We're also working with Elizabeth Freer and SDSTA CFO & HR to refine staffing plan and develop annual budget.

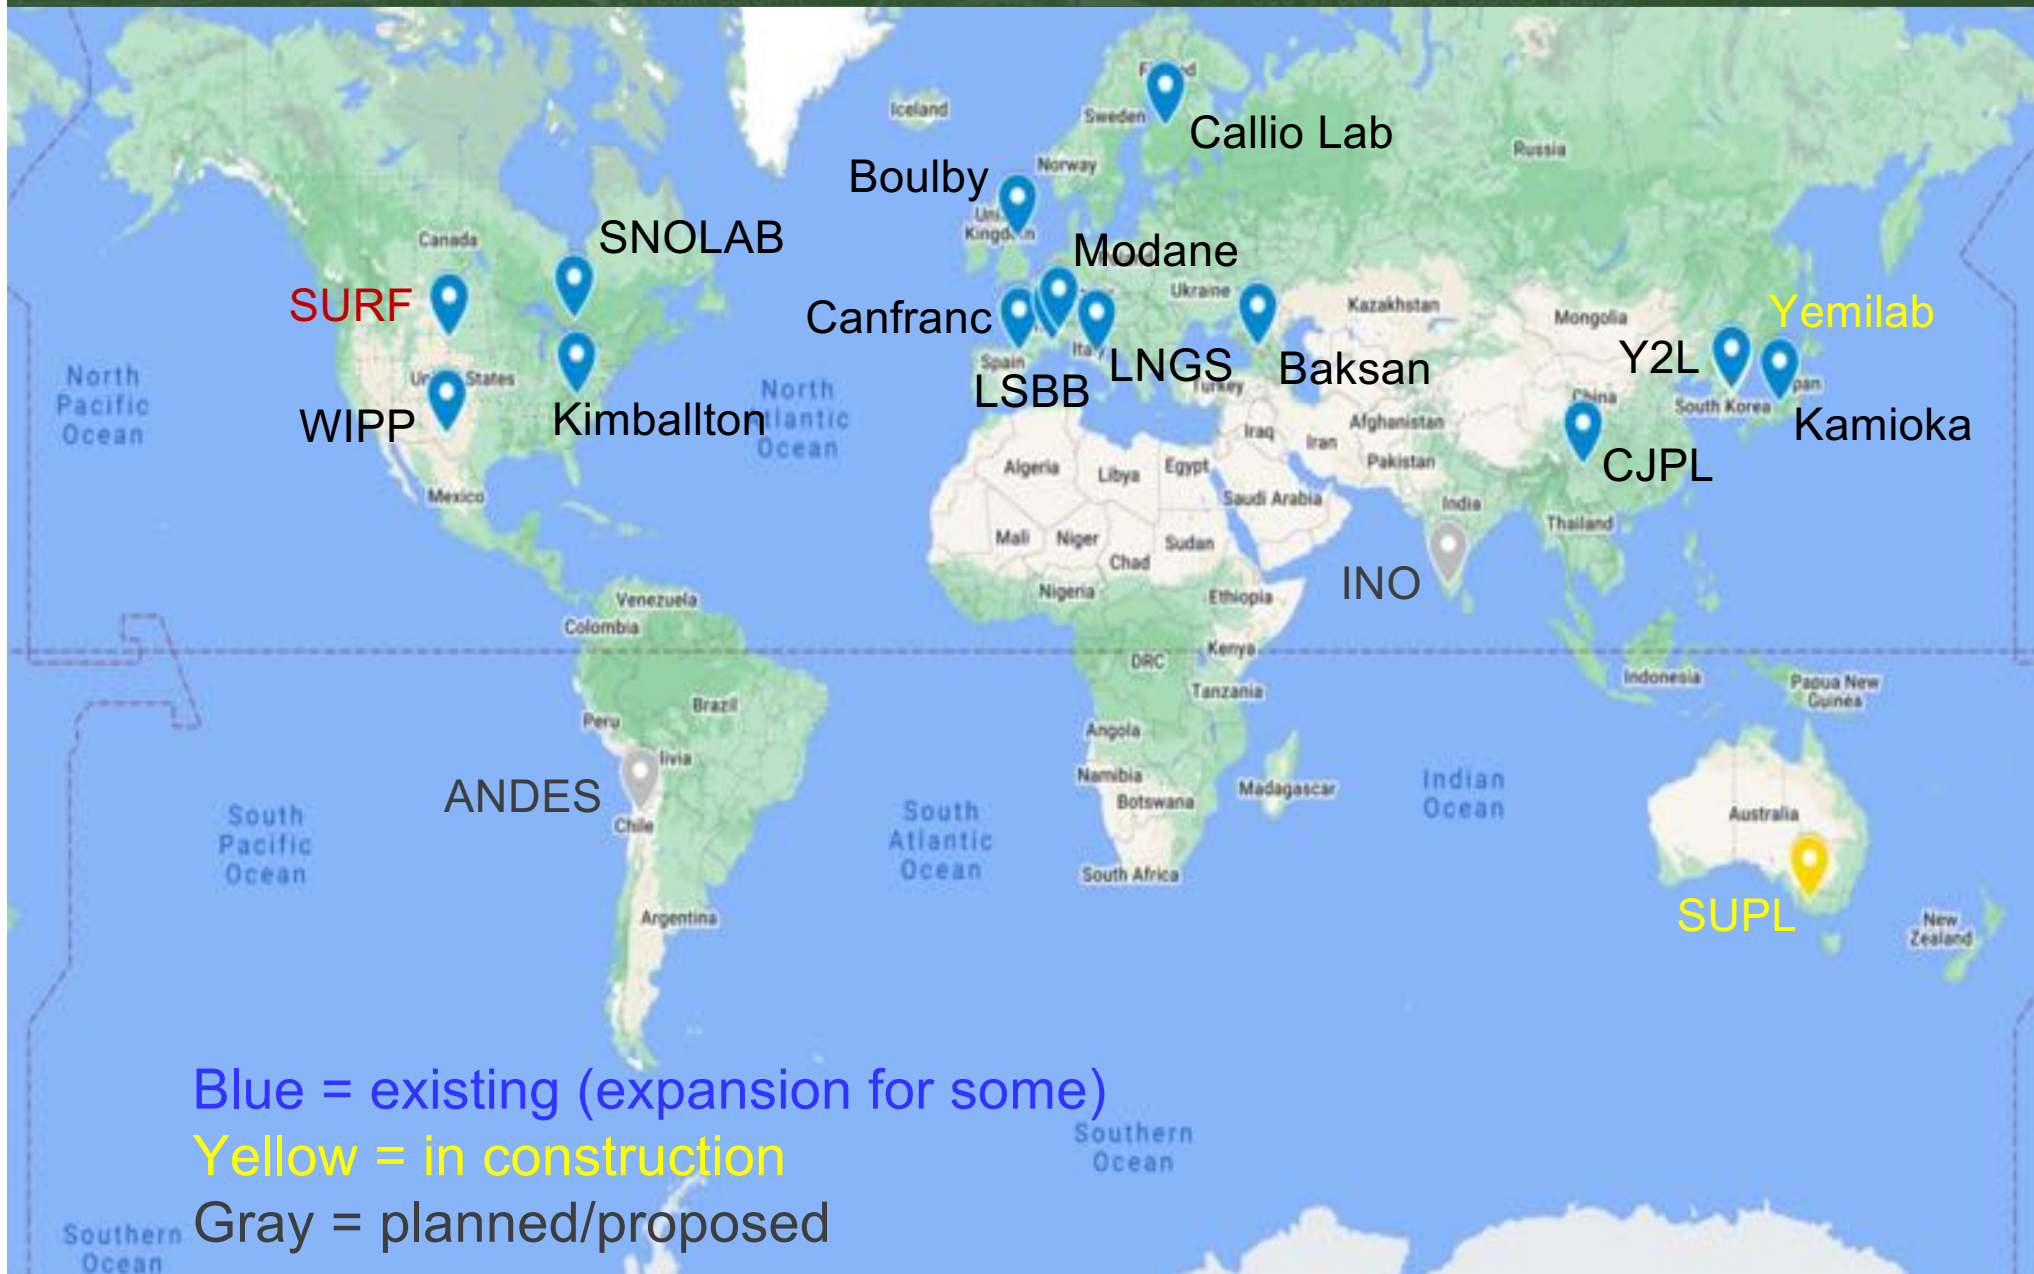

We expect to provide presentation on the above to SDSTA and SURFF Boards no later than Dec 2021 meetings.

Sanford Underground Research Facility

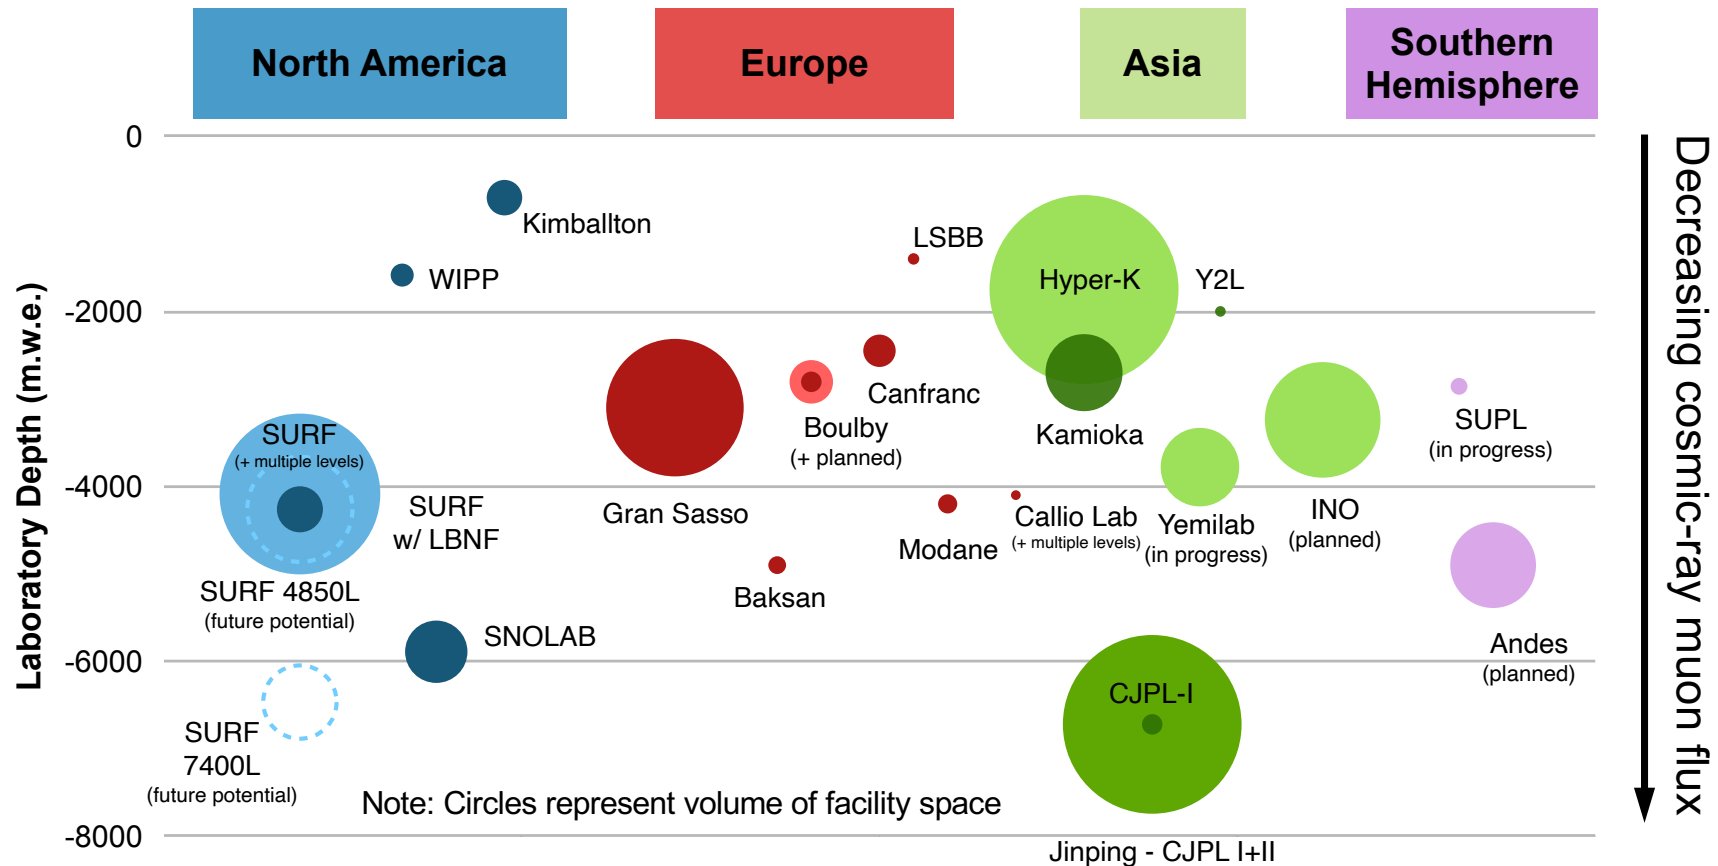

Thank you!

Underground Facilities

Underground Facilities

World-class UG Facilities provide:

- Overburden protection from cosmic-ray muons
- UG material production or purification
- Implementation and operations support
- Local radiation shielding, environmental controls
- Material screening

Underground Facilities

World-class UG Facilities serve a diverse community:

- Physics
 - Low-background environment to study rare processes
- Biology
 - Isolation from surface microorganisms
 - Variety of environmental conditions (temperature, humidity, etc)
 - Variety of niches (materials/rock geochemistry, water from different locations, trace gases, etc)
- Geology
 - Variety of geologic environments / rock formations (permeability, porosity, chemistry); also drill core archive
 - Variety of rock conditions (stress, temperature, etc)
- Engineering
 - Real-world environments for technology development, mining, etc

SURF Science Program

Researchers from 85 institutions (Pre-DUNE), active in bold (56)

SURF Laboratory Space

Summary for various science campuses, including timelines

Location	Laboratory	Existing/ <i>Planned</i> Space		Available (CY)	Comments
		Area (m ²)	Vol (m ³)		
Surface	Surface Lab (served by RRS)	210	600	2021	LZ use ~complete, allowing use by others
Davis Campus (4850L)	LZ Lab – Davis Cavern (2 levels)	372	1,956	~2027	LZ operations beginning 2021, complete by ~2026 + decommissioning
	MJD Lab – 2 Rms + BHUC share	300	1,279	~2024/2026	Initial scope complete by end of 2021, Ta-180m data to ~mid-2023 + decommissioning; e-form Cu through 2025
	Cutout Rms (4)	100	412	~2027	LZ timeframe for most spaces
Ross Campus (4850L)	Former E-forming	228	742	?	LBNF use + SURF UG WWTP
	BHUC (BHSU owns cleanroom)	266	773	~2025	Mothballed, most equipment and systems relocated to Davis Campus; re-occupy after LBNF construction
	CASPAR	395	1,130	~2024/2027	Mothballed, equip remains, re-occupy after LBNF construction? Use to expand Refuge Chamber during DUNE install
	Refuge Chamber	258	866	?	Long-term use TBD
LBNF (4850L)	<i>LBNF</i>	9,445	191,863	~2024	<i>Excavation started 2020, lasts ~3 yrs</i>
4100L	<i>Multiple labs</i>	<i>TBD</i>	<i>TBD</i>	<i>TBD</i>	<i>SIGMA-V in progress, also RESPEC</i>
4850L	<i>Propose 2 labs</i>	<i>2 x 2,300</i>	<i>2 x ~46,738</i>	<i>Responsive to community need</i>	<i>Each 20m (W) x 24m (H) x 115m (L)</i>
7400L	<i>Propose 2 labs</i>	<i>2 x 1,125</i>	<i>2 x 14,288</i>		<i>Each 15m (W) x 15m (H) x 75m (L)</i>

SURF Supports Science

Variety of Resources to Ensure Safe and Successful Science

Science

- Main point of contact for researchers, coordinate and marshal Lab resources to meet expt needs
- Oversight of expt implementation process, scientific/technical expt support (collab members, LBC ops)

Operations

- Maintain infrastructure and access to surface and underground facilities, incl hoists, shafts, drifts, services (power, network, etc); also experiment site preparation
- Transportation of personnel and materials: 24-hr access as needed, typically 63 science users per day

Environment, Safety & Health (and Security)

- Manage Safety Manual, incl policies, forms (e.g., oxygen deficiency, hazard analysis/WPC, etc)
- Safety resource (e.g., reviews, training, monitoring, waste, radiation, record keeping, ERT); prox access

Engineering

- Participate in understanding expt requirements, oversight of lab development, contract management, engineering support for Operations (access and maintenance)
- Assessments (incl equip design/certifications, ODH), system process design and troubleshooting

Admin / Business Services / Finance / IT

- User access & support (incl badging, event planning), contracts/rebilling, shipping/receiving, procurement, IT support (VPN, document mgmt, network data/phone), training accounts

Communications / Education & Outreach

- Interface with media and other groups, coordinate public meetings, outreach showcasing research/scientists at local, state and national levels (e.g., Neutrino Day), student internships (incl Science interns)

Experiment Implementation Program

SDSTA Publication Policy

Publication Policy

South Dakota Science and Technology Authority

A. Purpose

The purpose of this policy is twofold:

1. To establish high standards of excellence for publications by encouraging appropriate review for all scientific, technical and engineering publications related to Sanford Underground Research Facility ("Sanford Lab") research and technical activities prior to publication; and
2. To ensure Sanford Lab is notified of all publications that are based on work performed in whole, or in part, at Sanford Lab.

B. Applicability

This policy concerns collaborating partners ("Users"), employees, contractors and visitors working at or with the Sanford Lab.

This policy applies to all publications that are based on work performed in whole, or in part, at Sanford Lab. For the purposes of this policy, the term "Publication" means any document (in whatever form) such as abstracts, manuscripts and technical papers printed in a professional journal, popular periodical, published as a book or portion of a book (including electronic versions) and made available to the public. The term includes materials subject to patents or copyrights.

C. Responsibilities

The SDSTA is not responsible for the validity, opinions, findings, conclusions or methods of the research performed by Users at the Sanford Lab.

Prior to the publication of any work resulting from the research performed at the Sanford Lab, it is the responsibility of the author(s), or other person(s)

Approved on: 12/15/2016 This revision date supersedes all previous versions.

Section: 2 Employee Handbook Page: 108

Publication Policy

South Dakota Science and Technology Authority

responsible for the content of the publication and/or those who originated or developed the content, to ensure that:

1. All requirements of any relevant investigator institution's review processes are met.
2. Findings adhere to scientific community standards of ethics and values.
3. All requirements of any applicable funding agencies are met.
4. The publication contains the appropriate credits, oral acknowledgements, legal disclaimers and patent or copyright notices.
5. The publication complies with all applicable patent, copyright, intellectual property, and other applicable laws, as well as the requirements of the User's Memorandum of Understanding with the South Dakota Science and Technology Authority.

D. Acknowledgements

Publications should contain the appropriate credit line, including the funding source(s); the DOE or other agency contract number; any applicable facility (non-NSF or non-DOE contract number); and an acknowledgement of the assistance provided by the Sanford Lab. The acknowledgement of the Sanford Underground Research Facility must be included for publications that are based on work performed in whole, or in part, at the Sanford Lab. The following are examples of credit lines:

Approved on: 12/15/2016 This revision date supersedes all previous versions.

SURF Physics Overview – Current

Strong science program with exciting future possibilities

- LZ:** Direct search for **dark matter** using 10 tonnes xenon within ultra-pure water shield + Gd-loaded liquid scintillator veto

Status: All purified Xe UG at SURF, condensing underway, outer detector filled w/ liquid scintillator. Operations in 2021, run for 5 years
- MAJORANA DEMONSTRATOR:** Investigate **neutrinoless double beta decay** using 44 kg Ge in two cryostats, 30 kg enriched ^{76}Ge inside multi-layer compact shield

Status: Data 2015-2021 (achieved 65 kg-yr exposure), bkgd studies continue. Ultra-pure electroformed Cu production continues (avg U, Th decay chain $\leq 0.1 \mu\text{Bq/kg}$). LEGEND detector characterization and R&D. Planning for $^{180\text{m}}\text{Ta}$
- CASPAR:** Study of stellar nuclear fusion reactions, esp. neutron production for **slow neutron-capture nucleosynthesis** using 1-MV accelerator

Status: Beam operation 2017-2021, targets incl ^{14}N , ^{11}B , ^{27}Al , ^{22}Ne (gas), ^{18}O , ^7Li , ^{20}Ne , ^{22}Ne (solid). Planning for next phase of operation
- BHUC:** 4x **low-bkgd assay** counters operating with $\sim 10\text{s}$ ppt sensitivity (6 counters total in 2021)

Status: All purified Xe UG at SURF, condensing underway, outer detector filled w/ liquid scintillator. Operations in 2021, run for 5 years

SURF Material Assay at BHUC

Establishing national & international-level low-bkgd capabilities

Detector	Crystal		[U] mBq/kg	[Th] mBq/kg	BHUC Install Date	Status	Comments
	Type	Size					
Maeve (BLBF)	p-type (85%)	2.2 kg	0.1 (~10 ppt)	0.1 (~25 ppt)	Davis Campus: Nov 2020 (Ross Campus: Nov 2015; Davis Campus: May 2014)	Production assays	Relocated from Oroville. Old Pb (200-yr old) inner shielding. Cooling system upgrade 2020.
Morgan (BLBF)	p-type (85%)	2.1 kg	0.2 (~20 ppt)	0.2 (~50 ppt)	Davis Campus: Nov 2020 (Ross Campus: Nov 2015; Davis Campus May 2015)	Production assays	Low-bkgd upgrade 2015. Cooling system upgrade 2020.
Mordred (USD/CUBED, BLBF)	n-type (60%)	1.3 kg	0.7 (~60 ppt)	0.7 (~175 ppt)	Davis Campus: Nov 2020 (Ross Campus: Jul 2016; Davis Campus Apr 2013)	Production assays	Low-bkgd upgrade 2015- 2016, shield access upgrade. Cooling system upgrade 2020.
Dual HPGe (“Twins”) (BLBF, BHSU, UCSB)	p-type (120%)	2x 2.1 kg	~0.01 (~1 ppt)	~0.01 (~3 ppt)	Davis Campus: Sep 2020 (Ross Campus: Jul 2017 (initial), Mar 2018)	Commissi oning	Low-bkgd upgrades 2016-2017; flexible shield. Cooling system upgrades 2020.
Ge-IV (Alabama, Kentucky)	p-type (111%)	2 kg	~0.04 (~3 ppt)	~0.03 (~8 ppt)	<i>Davis Campus: Nov 2020 (initial), Fall 2021 (Ross Campus: Oct 2017 (initial), Jul 2018)</i>	<i>Installation underway</i>	<i>Vertical design, requires gantry + hoist. Cooling system upgrades 2020.</i>
RHYM+RESN (LLNL)	p-type (>100%)	2x ~1.1 kg	<0.1 (<10 ppt)	<0.04 (<10 ppt)	<i>Davis Campus: Sep 2020 (initial), Fall 2021</i>	<i>Installation underway</i>	<i>Cryocooler, low-E ²¹⁰Pb (<2 mBq/kg).</i>

Local universities have some additional material screening capabilities: **ICP-MS** (Black Hills State University) and **Rn emanation** characterization (SD Mines). Other: BetaCage (SDSMT prototype), XIA UltraLo-1800 (LZ)

Our Values

Safety Focused: We do not compromise safety or endanger the environment. Period.

Care for Others: We embrace and honor the fundamental value and dignity of all individuals. We listen knowing everyone has something to offer and to learn.

Professional: What we do is important to our community and the world. We sweat the details to achieve big things. Our behavior and ethics exemplify our best.

Team Players: We provide unmatched service. We are respectful and deliver for our customers and partners. We build trust not barriers.
