

Conference on Science at the Sanford Underground Research Facility

Wednesday, May 11, 2022

Biology - Parallel - EEP 255 (2:00 PM - 3:40 PM)

-Conveners: RAJESH SANI

time	[id] title	presenter
2:00 PM	[73] Omnitrophota encompasses diverse and hyperactive nanobacteria within SURF and beyond: Putative metabolic traits and host-dependent lifestyles	Dr HEDLUND, Brian
2:20 PM	[106] Microbial habitability of Black Hills caves: a geochemical perspective	Prof. KEENAN, Sarah
2:40 PM	[109] Hidden metabolism in the terrestrial deep subsurface	Dr JANGIR, Yamini
3:00 PM	[27] Investigating the novel ISS Methylobacterium species for PHA biosynthesis	SHARMA, Wageesha
3:20 PM	[108] Diversity and Ecological Niche Preferences of Subsurface-Adapted Methanotrophic Bacteria from the Deep Biosphere of Homestake Mine	Dr KRUMHOLZ , Lee
