

CETUP* 2023 SURF Site Visit Agenda July 11

Attendees

Up to 16 workshop participants;
see specific TAP entries for details
(number based on underground activities and space available on conveyances)

Guides/Hosts

Jaret Heise, Science Director
Markus Horn, Research Scientist
Doug Tiedt, Research Scientist
Deb Wolf, Outreach & Culture Director
Michelle Kane, SURF Foundation Director
Constance Walter, Communications Director

General Information			
SURF's COVID-19 protocols: Masks are 100% optional onsite as well as on the cage ride down/up.			
Underground Site Visit			
Temperatures will be in the low- to mid-70s °F (low 20s °C) on the 4,850-foot level. SURF will provide all necessary personal protective equipment (PPE). For safety purposes, we require tour guests to wear clothing that is appropriate at a construction site: full-length pants or jeans and closed-toed shoes . Restrooms are available underground. Cameras are welcome; personal items such as bags or jackets should remain on surface.
